This powerful presentation of the life and legacy of Rosa Parks combines visual and theatrical art to bring to life the story of an unpretentious African American who sat in the right place at the right time. Rosa Parks became a world symbol and earned her the well-deserved title of "mother of the modern day civil rights movement".

Doreen Griffin aims to educate and inspire people with the knowledge of the profound and courageous history of Rosa Parks. For more information on Ms. Griffin, please visit: <http://www.rosaparksperformer.com>
